LANGFORD WINS BY KNOCKOUT

Barry Out in 16th Round—Pittsburg Champions Win but Detroit's Lose at Opening of League Season.

Los Angeles, Cal., April 14.—In a fight which demonstrated anew the powers of Sam Langford at Boston, and added to the reputation of Jim Barry of Chicago only as to game-ness and ability to stand punishment, the champion of the world in the white antagonist to the mat for the final count in the sixteenth round at the Vernon arena today.

Barry surprised the ring-side crowd with the strength he displayed despite the punishment he suffered, and a rally in the fifteenth round his backers with hopes that he might outlast Langford.

Barry Stronger in Clinches.

While the men did not weigh in before entering the ring, it was said there was a difference of thirty pounds in Barry's favor. Barry's weight was given as 195 and that of Langford as 165. In the clinches the white man was far stronger of the two, and he was cautioned by the referee several times for rough tactics at close range.

In a clinch near the end of the third round Barry almost threw Langford through the ropes. From then until the eighth the bout was a mixture of slugging rallies and infighting. Barry used the negro roughly in the clinches and underwent severe punishment whenever they fought at long range.

From the sixth on Barry's defeat seemed only a matter of time. Several times during the eighth and succeeding rounds the men were hoisted for wrestling. Langford showed the most good nature, "stop your tickling," he admonished, during a clinch, "you can't win that way."

Barry Down for Count of Nine.

In the tenth the negro executed a coup de ring tactics. He suddenly threw the white man against the ropes and catching him on the rebound landed heavily flush on the nose. Barry dropped for the count of nine. Barry's left eye, out open early in the fight, was almost closed by the blow. Blood flowed in a stream from his nose and mouth.

The last four rounds were marked by a succession of punishing matches. It was during one of these hard rushes in the sixteenth round that Langford caught his almost exhausted opponent straight in the chin and ended the fight.

Bantamweight Fight Is Off.

Los Angeles, Cal., April 14.—The proposed 45-round bout here on April 30 between Frankie Conley and Danny Boy Foster for the bantamweight championship has been declared off by promoter McCarrey, the fighters not being able to agree on the number of rounds wanted. The fight was scheduled after having agreed to 45, according to Conley.

Coy Was Yale Hero.

Hartford, April 14.—Coy was the hero of the first game of the season here today, when Yale beat Hartford, 2 to 0. He made a great leap in the air and caught a liner in the fourth that shut out two runs. Two of his

FINANCIAL AND COMMERCIAL.

MARKET HOLDS STRENGTH.

Further Evidence of Systematized Proceedings of Large Operators.

New York, April 14.—The stock market today gave further evidence of the organized and systematized proceedings of the large operative forces which are supposed to be responsible for the advance of the day before. Stocks which were strongest yesterday were subjected to a process of profit taking at different times today to take advantage of the demand attracted by the outside sources by the demonstration of yesterday. The new demand was reported to be considerable, as shown by the buying orders received by commission houses. It was those orders, matched by the selling orders to realize from yesterday's buyers, which gave the market its appearance of animation during the first hour. The narrowness of the price movement during that time was a noticeable feature for the same reason.

The market's greatest show of strength developed in new quarters, as is usual in pursuance of a planned speculative campaign, in order to give an appearance of variety to the deal-ers and to extend support to the general list to facilitate the profit taking. The aggressive measures employed for carrying on the movement in the proof given in their scope of the possession of large resources gave confidence to a speculative following and intimidated the professional opposition. The retreat of the opposition by the covering of shorts was a material factor in the strength shown by the market.

There was as much speculation today to account for the action of the market, but current discussion about the stock exchange dwelt largely on general considerations. Crop news was considered encouraging and the decline in grain and cotton prices emphasized this view.

The weekly statement of the Bank of England pointed to a decrease in the demand from that source upon New York gold holdings. Besides the gain in bullion holdings, the week's repayments to the bank amount to over \$23,000,000, in addition to \$7,000,000 of American gold sent to the bank today, with further large sums allotted for the same destination. The March report of the bureau of statistics called renewed attention, however, to the abnormal conditions existing. The record imports, to the value of \$122,000,000, established a new record value of imports for that month of \$19,254,411, compared with an excess value of exports in March of last year of \$6,417,441.

It has been on Thursday each recurring week for a long time past that the stock market has begun to show the depressing effect of the approach of decision day in the supreme court. That influence was decisively removed by Monday's action of the court in re-negating for argument the American Tobacco and Standard Oil cases. It is this change in the situation which has received most attention in stock market circles, supplying the favorable basis for the speculative movement which has been inaugurated.

The two bill stocks were strengthened by the assurance coming from financing which it was believed might involve subscription rights to stockholders of value. Dividend increases on the other hand, of the running of United States Steel, Pennsylvania and other stocks, The Pittsburgh coal mining agreement, regarded with satisfaction. There was a better prevalent that a comprehensive advance in freight rates was in contemplation by the railroads as compensation for the rising wages of employees.

Bonds were firmer. Total sales, par value, \$3,804,000. United States bonds were unchanged on call.
